

Have Your Baby at the CHA Birth Center!

A natural and comforting environment to welcome your baby.

A Warm, Personal, Respectful Environment

The recently renovated CHA Birth Center provides a warm and welcoming environment to give birth and start bonding with your new baby. Our goal is to make your experience respectful, personalized, and centered on your family, which is why we welcome you to invite your family to be a part of your birth experience.

You and your family will be seen and heard at the CHA Birth Center.

Why have your baby here?

- A home-like, calm environment led by expert and caring Certified Nurse-Midwives
- A spa-like atmosphere with birthing tubs and tools to support a natural birth
- Evidence-based practices to provide the absolute best care for growing families
- Faster recovery and early family bonding
- A medical team that speaks your language and respects your wishes

What if I need medical intervention?

Our top goal is to make sure you receive the right care for a safe and positive delivery. Because the CHA Birth Center is directly across the street from CHA Cambridge Hospital, you and your baby will have all the support you need in the rare case of an emergency. CHA's hospital maternity unit is rated one of the best in the country by *U.S. News & World Report*.

CARE  THE PEOPLE

Doula Program

A doula provides comfort, encouragement, and support to you and your family during labor and after birth. While not medical providers, CHA doulas work alongside your care team using evidence-based practices and cultural knowledge. Our multilingual, culturally diverse doulas bring experience, compassion, and birth support to your journey. If you're planning to give birth at CHA and facing health or social challenges, you may qualify for free doula services.
