

Instructions for patients joining by video using a tablet or smartphone

Instructions for Downloading Google Meet App (for those joining group visit by tablet or smartphone)

Note: In order to use Google Meet, you need to have a Google Account. You can use an existing Google/Gmail account or create one.

You will need to remove your last name in your account settings before joining the meeting. See [Instructions for patients joining with gmail accounts](#)

Once you have removed your last name in settings:

Download Google Meet app

1. Search “google meet” in the app store (*Apple store or Google play store*)
2. Click “download” or “install”
3. Log into app with your Google email
