Installing Google Meet on a Mobile Device (Phone or Tablet)

### Android Mobile Devices

1. Locate the **Google Play** store
2. Search for **Google Meet** and select

### iOS/Apple Mobile Devices

- Locate the **App** store
- Search for **Google Meet** and select

**NOTE:** In order to use Google Meet, you need to have a Google Account. For Android users, you have one by default. For iOS/Apple Users, you can use an existing Google/Gmail account or create one.
Before Your First Telehealth Visit

1. Locate the **Google Meet** app on your mobile device and open it.

2. Select **Continue** to login with a Google account.

3. Enter your Google email and password. If you do not have a Google account, you can click **Create account**.

4. You are now in Google Meets.
