

# Services for Children

## Give Your Child the Best

**Cambridge Health Alliance** has an expert team of doctors, nurses and support staff that provide coordinated care to children and teens from across the greater Boston region.

Our Harvard Medical School faculty oversee the education of students as well as residents from Massachusetts General Hospital. This allows us to stay current on the most recent medical treatments and to provide your child with some of the finest pediatric care available in New England.

## Welcoming New Patients!

Primary Care Appointment Line  
**617-665-1305**

Pediatric Specialties  
**617-665-1264**

Many CHA Doctors offer meet and greet appointments for expecting parents. Please call our care centers directly for more information.

## For Your Child

- **Newborn Services.** We work closely with the Department of OB/GYN to care for babies before they are born and as newborns in our nursery. This work is supervised by a neonatologist, an expert in the care of newborns.
- **Primary Care.** Choose from more than 50 doctors and nurse practitioners who work at our many Boston-area locations (turn over for a map).  
  
All of our sites are linked by a state-of-the-art electronic medical record, allowing us to understand your child's needs wherever they touch our system. Our doctors are also on duty for sick visits 365 days a year.
- **Specialty Care.** Sick children need special care, which is why we provide specialists from Massachusetts General Hospital at the CHA Cambridge Hospital. We are also national leaders in asthma care and mental health services for children.
- **24-hour Care.** Your child has access to 24-hour emergency care at our three hospitals: CHA Cambridge Hospital, CHA Somerville Hospital and CHA Everett Hospital. Visit [www.challiance.org](http://www.challiance.org) for current wait times.
